Dear Mr. Scott:

This is in response to your Form PI-1S (Air Quality Standard Permit for Pollution Control Projects) regarding the proposed renewal of Standard Permit 91414. After evaluation of the information you submitted, the Texas Commission on Environmental Quality (TCEQ) has renewed this standard permit pursuant to Title 30 Texas Administrative Code § 116.604(4) (30 TAC § 116.604(4)) if constructed and operated as represented in your registration.

This standard permit was issued under the Texas Clean Air Act (TCAA) § 382.011, which authorizes the commission to control the quality of the state's air; TCAA § 381.023, which authorizes the commission to issue orders necessary to carry out the policy and purposes of the TCAA; and § 382.05195, which authorizes the commission to issue standard permits. Authorized emissions are listed on the attached table.

You are reminded that 30 TAC § 116.615 requires that any construction or change authorized by this standard permit be administratively incorporated into the affected facilities' permit(s) at the next amendment or renewal.

You are also reminded that these facilities must comply with all rules and regulations of the TCEQ and of the U.S. Environmental Protection Agency at all times.

If you need further information or have any questions, please contact Mr. John Ma at (512) 239-4686 or write to the Texas Commission on Environmental Quality, Office of Air, Air Permits Division, MC-163, P.O. Box 13087, Austin, Texas 78711-3087.

Sincerely,

A handwritten signature in black ink that reads "Mark T. Meyer".
